Millions of Marylanders Have Received the COVID-19 Vaccine Have You Had Yours?

Getting vaccinated prevents severe illness, hospitalizations, and death

More information on vaccine effectiveness at:
www.cdc.gov/coronavirus/2019-ncov/vaccines/effectiveness/work.html

Masking Guidance

Protect yourself and others by wearing a mask in all indoor public places if you are:

Unvaccinated and age 2 or older

At risk of severe disease due to age or underlying conditions

Live with someone at risk of severe disease

Keep in mind, guidance for safe activities keeps evolving. Check with individual workplaces, local jurisdictions, schools, and businesses about their mask policy.

Consider Telehealth

Telehealth is a safe and convenient way to receive a broad range of health care services using a computer, tablet, or smartphone. Talk to your health care provider or health insurer about your telehealth options.
